

THERM POWER 32

Heat Transfer Fluid

THERM POWER 32 is a premium quality heat transfer oil intended for use in closed indirect heating systems with expansion tanks temperatures up to 315°C.

THERM POWER 32 is based on high quality virgin mineral base oil to ensure the following properties:

- Excellent thermal and oxidation stability
- Minimizes deposit formation and viscosity increase
- Extended service life and reduced downtime
- Exceptional resistance to thermal cracking and decomposition enables this oil to perform well up to a maximum bulk oil temperature of 315°C with minimal interference with heat transfer capability
- High specific heat and thermal conductivity of this oil provides more rapid heat dissipation
- Superior low temperature fluidity ensures quick circulation at start-up and reduced risk of local overheating
- Non corrosive to aluminium, steel, copper, brass or bronze
- Non-toxicity of this oil provides easy disposal of used oil
